

Internship technical writing Energy Transition

Are you a natural born writer with a passion for energy and the energy transition?

Who is ready for an adventure in Belgium?

To join a multi-disciplinary team of energy enthusiasts?

Our Company in a nutshell

Th!nk E is an innovation oriented company, operating on a European scale and active in the domain of energy in the built environment and energy infrastructure. Our team consists of engineers, mathematicians and legal experts – all positive people with a touch of craziness and a lot of drive to have an impact on the energy world of tomorrow.

Th!nk E focuses on two lines of business: on the one hand we exploit a unique Living Lab: a building renovated to a grid-supporting net zero energy concept. On the other hand, we are involved in several local, national and European projects focusing on smart energy and cities, smart grids and energy infrastructure and more.

What we offer

We offer a full-time position for an internship for a period of 3 to 6 months with an attractive market-conform remuneration.

The focus during your internship will be on transforming our technical texts and documents to attractive and well-written English texts understandable for a broad public. You will be guided by us, but we want you to take initiative and surprise us.

The projects to which you will be making contributions are among others:

- City-Zen
- SCIS
- SCIS2

What we are looking for

Your skills:

- You have a master's degree
- You have notions of energy and energy technologies and you're eager to learn a lot in an international environment
- You have a talent for writing, in particular for explaining technical topics to a broad public

- You communicate fluently in English
- Profound knowledge of a second language (French, Dutch, German, Spanish) is a big plus

Your personality:

- You are a positive person with a sense of humour
- You are a team player, but can focus on individual assignments independently
- You are dynamic, creative and show initiative
- You are well organized in your tasks, setting ambitious goals for yourself and respecting deadlines

Location

Oud-Heverlee, in the vicinity of Leuven and Brussels

How to apply

Are you convinced we are a good match? Then we friendly ask you to send us

- your resume,
- a max 250 words long motivational letter in English,
- a max 150 words long text in which you explain the difference between kW and kWh,
- an indication from which date you are available to start with the internship,

to the mail address info@think-e.be.

We will consider your application and give you feedback soon.

This job posting is open until September 26 2019.

If you still have questions about the content of the internship, contact us via info@think-e.be.
